Resolution of the Standing Committee—

"The question of the Municipal toll-gates does not arise for consideration. As regards the provincial toll-gates and District Fund toll-gates the proposal for grant of exemption may be accepted, but there is no need for a provision of the kind in respect of District Fund toll-gates since under section 66 of the District Board Regulation a single payment at any one gate gives clearance in all other District Fund toll bars in the same district for a period of 24 hours counted from sunrise to sunrise."

Resolution.—Standing Committee resolution is approved.

Resolution.—Recorded.

7. Development Secretary's letter No. D. 8586-92—A. & E. 211-28-2, dated 21st February 1929, requesting to intimate whether the District Board would meet the cost of the transport and other charges such as losses due to breakages, etc., of the improved Agricultural implements and manures supplied to the raiyats at cost price.

Resolution of the Standing Committee—

"The Committee consider that this step is not a desirable one as the small amount of money available will be frittered away and no substantial results can be achieved. This step will also come in the way of any comprehensive scheme being actually worked out with advantage."

Resolution.—Standing Committee resolution is approved.

9. Letter No. 8243-28, dated 8—10th October 1928, of the Registrar of the Mysore University forwarding an appeal to the generous public to accord support to the Medical Faculty Fund.

Resolution.—Recorded.

10. Chief Engineer's letter No. 2988, dated 26th September 1928, *re* supply of detailed information connected with the execution of works by the P. W. D. for the District Board.

Resolution.—The Board have perused the G. O. No. L. 6287-96—V. P. 10-27-35, dated 9th April 1928, referred to in the Chief Engineer's letter under consideration.

The District Fund roads in the District are not maintained in a satisfactory condition and it is feared that adequate attention has not been bestowed on them. Withholding of full information about details has placed the Board in a false position.

The annual mileage allotments have been increased according to demands made by the D. P. W. and large special repair estimates have also been sanctioned by the Board during the past three years. Once again there are special repair estimates up to a sum of Rs. 43,000. In these instances, unless full details as to the items for which moneys have been spent are furnished to the District Board, the Board will not be persuaded to sanction such estimates or allot funds as they are not taken into confidence and details of expenditure are denied to them.

The Board therefore urge again that full details should be made available to them as regards outlay on District Fund Works in view of their fruitless sacrifices in the past and their desire to be assured of the beneficient expenditure in the future of funds they are prepared to sanction for the improvement of the roads.

The Board can only sanction funds after these unfortunate experience, if they can be assured of every facility to satisfy themselves that the funds sanctioned are spent as intended.

Resolution.—The Board are in favour of the conversion of deserving Aided Schools, and they will recommend the deserving schools for conversion, if they are favoured with a list of such institutions for scrutiny by the Board beforehand. General Rules without taking into consideration the population, existing facilities, greater need of other places and such like might result in a tendency to perpetuate and accentuate inequalities.

13. Letter No. A. 4-2312-151, dated 5th November 1928, of the Director of Public Instruction, calling for the opinion of the Board about abolishing the existing Incomplete Middle Schools in the District by developing them to Complete Middle Schools.

Resolution.—The Board is in favour of the conversion of Incomplete Middle Schools into Complete Middle Schools—but they are not in favour of the abolition of these schools or their reduction into Primary Schools, while agreeing that some of them require improvement or a complete change of outlook developing as institutions for extension.

Resolution of the Standing Committee—
